About Me

I'm a MERN Stack Developer with a proven track record of building full-stack web applications using MongoDB, Express.js, React, and Node.js. With 2 years of hands-on experience, I specialize in creating scalable and responsive web solutions that provide exceptional user experiences. Proficient in both frontend and backend development, I excel at designing intuitive user interfaces, implementing robust APIs, and optimizing application performance. My passion for staying up-to-date with the latest technologies and best practices ensures that I can contribute effectively to any dynamic development team. Ready to leverage my expertise to drive innovation and deliver high-quality software solutions.

Skills

JavaScript, TypeScript, React, Tailwind CSS, Node.js, Express.js, MongoDB, Git, Redux

Work Experience

Backend Developer

Cybadot Technologies • Port Harcourt, Rivers

01/2023 - 04/2023

1. - Developed and maintained server-side applications using JavaScript, Node.js, and Express.js.
2. - Designed and optimized database schemas for efficient data storage and retrieval, using NoSQL databases MongoDB.
3. - Implemented RESTful APIs, authentication systems, and third-party integrations to enhance application functionality.
4. - Collaborated closely with frontend developers to ensure seamless integration between the front and back ends of web applications.
5. - Conducted thorough testing and debugging to identify and resolve issues, ensuring high code quality and reliability.
6. - Optimized backend systems for scalability, allowing applications to handle increased traffic and maintain excellent performance.
7. - Participated in agile development processes, including daily stand-up meetings, sprint planning, and code reviews.

Full-Stack Developer

Leapsail Limited • Ikeja, Lagos

10/2022 - 02/2023

1. - Developed and maintained server-side applications using JavaScript, Node.js, and Express.js.
2. - Developed and maintained web applications using React.js, creating interactive user interfaces and ensuring a seamless user experience.
3. - Designed and optimized database schemas for efficient data storage and retrieval, using NoSQL databases MongoDB.
4. - Implemented RESTful APIs, authentication systems, and third-party integrations to enhance application functionality.
5. - Collaborated closely with frontend developers to ensure seamless integration between the front and back ends of web applications.
6. - Conducted thorough testing and debugging to identify and resolve issues, ensuring high code quality and reliability.
7. - Optimized backend systems for scalability, allowing applications to handle increased traffic and maintain

excellent performance.

- 8. - Participated in agile development processes, including daily stand-up meetings, sprint planning, and code reviews.

Education

Management Science

University of Portharcourt • Port Harcourt, Rivers
02/2022
